Kingdoms and Legends

A Channeled Message on Cosmic History, Karmic Justice, and Hidden Realities (September 10, 1999)

OVERVIEW

This 50-minute message addresses planetary deterioration, karmic consequences, hidden kingdoms existing in parallel dimensions, and legends representing actual historical events. The beings discuss how Earth has worsened despite their efforts and how cosmic justice operates through inevitable consequences.

CORE CONCEPTS

Planetary Deterioration Observed: The beings perceive Earth deteriorating with 'no way back' visible. Disarray increases despite their attempts at intervention.

Karmic Inevitability: Those causing misdeeds have 'caricatured their identities' within thought processes. Apparent unpunished cruelty finds inevitable punishment; cruelty finds internal peace (through karma).

Parallel Kingdoms: Multiple kingdoms exist in parallel dimensions with their own governance and life structures. These are real kingdoms, not mythological.

Legends as History: Legends of ancient peoples (Atlanteans, Lemuria, Lemurians) represent actual historical events and real civilizations that existed in parallel frequencies.

African Consciousness Legacy: African peoples carry ancient consciousness frequencies and genetic memory connecting to earlier advanced civilizations.

Atlantean Remnants: Atlantean knowledge and beings continue in parallel dimensions. Their downfall has counterparts in current Earth cycles.

Hidden Councils: Governance occurs at multiple levels simultaneously—visible governments and hidden councils coordinating across dimensions.

Chance and Fortune: Despite deterioration, fortunate incidents may provide uniformity and correction if consciousness permits.

Multi-Era Compression: Historical periods and lifespans compress—a 'period' is both a historical era and a single second in current life.

Observation from Beyond: The beings' role includes observation with inability to directly stop processes—cosmic law prevents forced intervention.

KEY TAKEAWAY

Earth is in serious deterioration with limited visible recovery paths. Karmic law operates inevitably—wrongdoing creates inescapable consequences through natural cosmic law. Parallel kingdoms with their own civilizations exist beyond human perception. Ancient legends represent actual history. Consciousness legacies (African, Atlantean, etc.) carry real power and memory. Cosmic law prevents forced salvation—only those choosing elevation can be helped.

Recording Date: September 10, 1999 | Duration: ~50 minutes
