The Ranges and Re-Assemblies

A Channeled Message on Dimensional Restructuring and Consciousness Reorganization (December 24, 2000)

OVERVIEW

This 49-minute message discusses cosmic reorganization—how dimensions and consciousness structures are being reassembled. Major shifts occurring in cosmic architecture.

CORE CONCEPTS

Ranges Concept: Consciousness and dimensions arranged in ranges—organized hierarchies.

Re-Assemblies: Currently major reorganization occurring—ranges being reassembled.

Why Reorganization: Evolution and progression require periodic restructuring of dimensional architecture.

Frequency Adjustment: Many consciousnesses adjusting to new frequencies as reorganization occurs.

Gateway Shifts: Portals and gateways between dimensions shifting—access points changing.

Chaos During Transition: Reorganization creates temporary chaos and disorientation for some consciousnesses.

Necessary Process: Though difficult, reorganization is necessary for evolutionary progress.

Guidance Available: Guides assist consciousnesses navigating reorganization transition.

New Possibilities: Reorganization opens new pathways and possibilities previously unavailable.

Collective Impact: Individual reorganization contributes to and reflects collective restructuring.

KEY TAKEAWAY

Major cosmic reorganization occurring—dimensional ranges being reassembled. Consciousness frequencies adjusting to new structures. Portals and gateways shifting. Though temporarily chaotic, reorganization enables evolutionary progress. Guides assist through transition. New possibilities

emerge from restructuring. Individual and collective evolution linked to dimensional reorganization.

Recording Date: December 24, 2000 | Duration: ~49 minutes
Summary Created: August 30, 2026
